

2014 TECHNOLOGY GUIDE

ShortTrack

ShortTrack helps you manage your business from lead-to-close with simple, secured collaboration. Maintain complete control while allowing people to manage and share documents, notes, tasks, and email from one place. Through its innovative mobile-first design, all transaction management features work on your phone, tablet, laptop, or desktop...from anywhere.

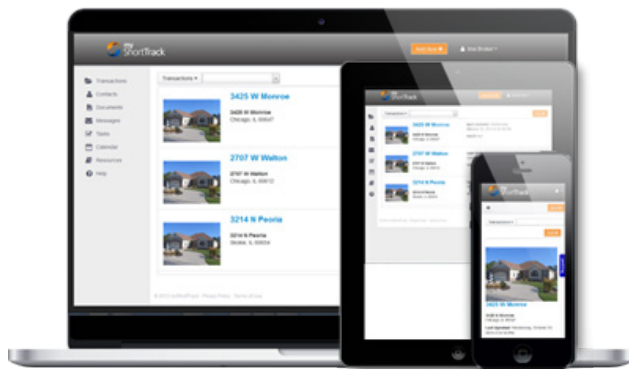

What makes it unique?

- Manage all your leads in one place, without giving up your CRM
- Seamlessly move leads to transactions...and then to closing
- Track emails and upload documents without logging in
- Create custom transaction roles and teams with permissions
- Build workflow templates with documents, relative dates, assigned roles, alerts, and milestones
- Automate your business with reminders and alerts
- Connect seamlessly to your title company

For Brokerage Management:

- Track, review, and approve documents
- Reduce liability with audit trails and customized reports
- Have full visibility of agents' transactions and activity

Manage everything in one place by connecting your lead gen, marketing, CRM, accounting, & e-signature with ShortTrack.
